Hey Steven:

Great work putting this together so quickly! I am swamped today and tomorrow but will make time to review by EOW. There is also potentially relevant 308 guidance from HQ that I need to read. Are you free on Friday at 8am to discuss?

FYI – Leah and I have a call scheduled with DOJ tomorrow to discuss this case. I'll update you if I learn anything new.

Caitlin,

Take a look at what I have crafted. I am going to have our scientists take a look at the questions again. Then

send to USGS to see what else. Lets have a conversation about the questions as they are technical in nature and I am working with out scientists to make the questions straightforward and understandable that obviously they will need to hire a consultant. Also I need to run a Dun and Bradstreet on them .
